Pets suffer from the same stressors that cause human anxiety. Moving to a new home, the loss of a loved one, introduction of a new pet or family member can all trigger a stress response. Stress and anxiety felt by a cat or dog may result in destructive behaviours, loss of sleep or appetite, yowling or barking at all hours, especially due to separation anxiety.

E-Z Rest has been specifically formulated with these particular pet anxieties in mind. Use **E-Z Rest** daily or as needed to help calm your anxious pet. Suitable for both cats and dogs, **E-Z Rest** is an easy-to-use, and better absorbed liquid formulation, with natural chicken flavour.
